3. Main Goal of the Study Programme

Bible, Ministry and Mission is a one-year programme that will equip students to serve in their local church and to do missionary work. It qualifies for both voluntary and paid work in Christian churches and organizations.

This goal is achieved by giving the student a basic introduction to the Bible, Christian faith and service so that one can convey the Christian faith in churches both in Norway and around the world.

The programme in Bible, Ministry, and Mission may be incorporated into other types of education and may also be included in further studies within Christianity or theology.

4 Learning outcomes

The learning outcomes of the study programme are divided into knowledge, skills and general competence. This is in accordance with the Norwegian qualifications framework for lifelong learning (NQF). The Norwegian qualifications framework is meant to be used as a transparency tool for comparison of Norwegian qualifications with qualifications from other countries, via the European qualifications framework (EQF) and/or the European qualifications framework for higher education (QF-EHEA). NQF intends to promote cross-border mobility.

A candidate who has completed his or her qualification should have the following learning outcomes defined in terms of knowledge, skills and general competence:

5. Study Description

5.1 Academic Year

The academic year is divided into two semesters totalling a period of 40 weeks (10 months). It starts in the autumn when the semester begins in August and finishes in December, followed by 2-3 weeks of Christmas holiday. The spring semester begins in January and ends in June. There are three courses in each semester.

60 ECTS amounts to 1500-1800 work hours over a year, which means that each course is estimated to amount to 250-300 work hours. This includes lectures, assignments, and reading of about 700-800 pages of literature for each course (10 ECTS).

5.2 Language of Instruction

English.

5.3 Required Reading

The length of the required reading varies depending on the subject's character and forms of assessment. The required reading is normally 700-800 pages for each course (10 ECTS).

5.4 Hours of Instruction

The number of hours of instruction is specified for each course that is taught. This corresponds to 48 hours per 10 ECTS. In addition to the 48 hours, some of the courses may have seminars and different types of group work.

5.5 Attendance

To be eligible for final assessment a minimum of 70 % attendance is required in all courses. For more information on what to do if you fail to attend the required number of classes, see the document "Attendance and Absence from Class" on the school's learning management system (LMS).

5.6 Course Requirements and Final Assessment

The final assessment for each course is based on a written exam or an assignment. To receive a final assessment, the student must fulfil the course requirements within the fixed deadline and not later than two weeks before the exam date. If you fail to fulfil the course requirement, you will be given one (1) more attempt. If you then fail, you will have to wait until the next time the course is taught.

The course and final exam will be graded A-E for pass and F for fail. The official description of the criteria in the grading scale is found online at:

<http://www.uhr.no/index.php?objectId=1282&method=view&bm=contents>.

In addition, FIUC has developed a more comprehensive description of these criteria. This document is available at the school's learning management system (LMS) (in Norwegian).

For more information on assessment and exam we refer you to the document "Forskrift om opptak, studier og eksamen ved Fjellhaug Internasjonale Høgskole" (2014).

6. Teaching and learning methods

6.1 Teaching

Teaching takes place in the classroom and instruction is mainly given through lectures or seminars. Students are encouraged to participate in class discussions.

In addition to reading the required literature in each course, some courses also might have one or two course requirements which you must fulfil to be eligible for the final exam.

We assume that you have access to the internet. A significant part of the communication between the school and the students is done by FIUC's learning management system (LMS).

For each course, there is a person with course responsibility, who can help you with questions related to the course and the completion of the course. The person with course responsibility is also the one who assesses and gives feedback on the course requirements.

6.2 On Writing Academic Papers

An important skill you are going to develop by taking this study programme is the ability to write papers where you present and discuss an issue, analyse and reflect critically on what other people have written and express and argue for your own opinions. This is done by reading academic literature and writing a paper on the subject.

By writing academic papers you demonstrate that you can:

- organize the text in a way that presents the topic in a logical manner
- use proper terminology
- provide references and a bibliography

Each autumn semester we arrange a workshop where we give you an introduction to the writing process and the formal guidelines for the preparation of an academic paper – including a template you may use and help to the writing of source citations and bibliography.

In addition, the course requirements and the feedback you receive are meant to be an important part of your exercise in writing academic texts.

As a basic introduction to the writing of academic papers the university college recommends:

- Mligio, Elia Shabani (2012): *Writing Academic Papers: A Resource Manual for Beginners in Higher-Learning Institutions and Colleges*. Eugene, OR: Wipf & Stock Publishers (90 pages).

For a more specific introduction to the writing of theological assignments (supplied with some very useful appendixes) the university college recommends:

- Kibbe, Michael (2016): *From Topic to Thesis: A Guide to Theological Research*. Downers Grove, IL: IVP Academic (153 pages).

7. Description of Programme Structure

1. semester, autumn	BMM1001 Introduction to the Bible (10 ECTS)	BMM1002 Church History and Christian Churches (10 ECTS)	BMM1005 Introduction to Missiology (10 ECTS)

8. Quality Assurance

The quality, content, completion and development of the programme is assured by the institution's internal quality assurance system, which was approved by NOKUT (Norwegian Agency for Quality Assurance in Education) in 2009.

Included in the institution's quality assurance practices are regular evaluations of the different courses where the students give feedback on the teaching, the literature etc. Furthermore, the institution conducts an annual evaluation of the general quality of education. Results derived from the institution's different quality assurance practices form a part of the knowledge base used in evaluating and developing the institution's study programmes.

Another important quality assurance practice is the use of external assessment. Periodically, the institution asks the external examiner to write an evaluation of the content of the course, the learning outcomes and the literature on the reading list. In his evaluation, the external examiner is also asked to give recommendations on how to improve and develop the course in question.

For more information on the university college's internal quality assurance system we refer you to "Kvalitetssystem for Fjellhaug Internasjonale Høgskole", which is available on the school's learning management system (LMS) in Norwegian.
