## 5. Study Description

### 5.1 Academic Year

The academic year is divided into two semesters totalling a period of 40 weeks (10 months). It starts in the autumn when the semester begins in August and finishes in December, followed by 2-3 weeks of Christmas holiday. The spring semester begins in January and ends in June. There are three courses in each semester.

60 ECTS amounts to 1500-1800 work hours over a year, which means that each course is estimated to amount to 250-300 work hours. This includes lectures, assignments, and reading of about 700-800 pages of literature for each course (10 ECTS).

### 5.2 Language of Instruction

English.

### 5.3 Required Reading

The length of the required reading varies depending on the subject's character and forms of assessment. The required reading is normally 700-800 pages for each course (10 ECTS).

### 5.4 Hours of Instruction

The number of hours of instruction is specified for each course. In addition to the instruction hours, some of the courses may have seminars, different types of group work and field trips.

### 5.5 Attendance

All courses have attendance requirements described in the course description. For more information on what to do if you fail to attend the required number of classes, see the document "Attendance and Absence from Class" on the school's learning management system (LMS).

### 5.6 Course Requirements

In most courses there are course requirements that must be completed for the student to be eligible for the final assessment. These must be fulfilled within the fixed deadline and not later than two weeks before the exam date. If you fail to fulfil the course requirements, you will be given one (1) more attempt. If you then fail, you will have to wait until the next time the course is taught. The student may contest the evaluation of the second attempt of the course requirement within one week after the publication of the assessment.

Passed course requirements are valid for three years as long as the learning outcomes of the course remain unchanged.

## 5.7 Final Assessment and Study Requirements

The final assessment for each course is described in the course description.

The course and final exam will be graded A-E for pass and F for fail. The official description of the criteria in the grading scale is found online at:

<http://www.uhr.no/index.php?objectId=1282&method=view&bm=contents>. Some courses are graded Pass or Fail.

In some courses the final assessment consists of the completion of a number of study requirements. Rules for attempts per study requirement is found in the course description. Students who want to appeal on grade awarded, may do so within three weeks after the publication of the grade in StudentWeb.

For more information on assessment and exam we refer you to the document “Forskrift om opptak, studier og eksamen ved Fjellhaug Internasjonale Høgskole” (2014).

## 6. Teaching and learning methods

Teaching takes place in the classroom and instruction is mainly given through lectures or seminars. Students are encouraged to participate in class discussions. In some courses there will be field trips

In addition to reading the required literature in each course, some courses also might have one or two course requirements which you must fulfil to be eligible for the final exam.

We assume that you have access to the internet. A significant part of the communication between the school and the students is done by FIUC’s learning management system (LMS).

For each course, there is a person with course responsibility, who can help you with questions related to the course and the completion of the course. The person with course responsibility usually is also the one who assesses and gives feedback on the course requirements.

## 7. Description of Programme Structure

## 8. Student Exchange and Internationalization

FIUC encourages students to take a semester at a foreign institution. FIUC has a student exchange agreement with All Nations Christian College outside London in the UK and with Freie Theologische Hochschule in Giessen, Germany. Both places offer courses within theology and mission. Students are also encouraged to travel to other approved places of study. The university college must pre-approve the subjects that students plan to study so that they can be incorporated as part of the student's bachelor's degree. If the student wishes to take parts of the bachelor program abroad, he/she must apply in due time before leaving.

## 9. Quality Assurance

The quality, content, completion, and development of the programme is assured by the institution's internal quality assurance system, which was approved by NOKUT (Norwegian Agency for Quality Assurance in Education) in 2009.

Included in the institution's quality assurance practices are regular evaluations of the different courses where the students give feedback on the teaching, the literature etc. Furthermore, the institution conducts an annual evaluation of the general quality of education. Results derived from the institution's different quality assurance practices form a part of the knowledge base used in evaluating and developing the institution's study programmes.

Another important quality assurance practice is the use of external assessment. Periodically, the institution asks the external examiner to write an evaluation of the content of the course, the learning outcomes, and the literature on the reading list. In his evaluation, the external examiner is also asked to give recommendations on how to improve and develop the course in question.

For more information on the university college's internal quality assurance system, we refer you to "Kvalitetssystem for Fjellhaug Internasjonale Høgskole", which is available on the school's learning management system (LMS).

the form and theology of these prayers. Furthermore, the student is given a short introduction to central texts where Jesus teaches his disciples to pray.

### Part Two (2 ECTS)

In this part of the course we focus on the role of prayer in the worship of the Church and at selected church services (prayer for the sick, intercessions). Further, the role of prayer in the Christians life will be treated, e.g. Daily Office/Liturgy of Hours and personal devotional life.

### Part Three (4 ECTS)
